

KANSAS BOARD OF EMERGENCY MEDICAL SERVICES

Kansas Continuing Education Plan

Adopted: February 2019

Kansas Continuing Education Plan

PLAN OVERVIEW

Core component

- This area is comprised of 6 general topic areas
 - Airway Respiration Ventilation
 - Cardiovascular
 - Trauma
 - Medical
 - Operations
 - Pediatrics

- The Kansas core components may be used to fill requirements in the Local and Individual content areas.

Flex component

- Flex topics may include local protocol and procedure training or needed training identified through local quality assurance/quality improvement processes; and personal development topics that enhance EMS practice, skills, values and knowledge.
 - Kansas core components may be used to fulfill the Flex component.
